

Zeeshan Khaliq

Front End Developer

Passionate front-end developer with expertise in React JS, specializing in building dynamic and intuitive user interfaces. Skilled in HTML, CSS, and JavaScript, I leverage React's component-based architecture to deliver seamless web applications. With a strong eye for design and a focus on user experience, I create visually appealing and responsive websites. Experienced in collaborating with cross-functional teams, I excel in agile environments. Constantly staying updated with the latest industry trends, I strive to incorporate best practices into my work. Let's connect and discuss how I can contribute to your team's front-end development projects.
